- Technology-enhanced learning

PROFESSIONAL SUMMARY

NYC Public Schools paraprofessional and TESOL graduate student with hands-on experience supporting multilingual learners and students with diverse learning needs. Skilled in small-group instruction, academic language development, differentiated supports, and collaboration with classroom teachers. Brings an additional background in New Media Design to create clear, engaging, and accessible visual and digital learning materials.

PROFESSIONAL EXPERIENCE

Paraprofessional

2024 - Present

NYC Public Schools

- Support multilingual learners and students with disabilities and diverse learning needs through individualized, small-group, and classroom-based instruction.
- Reinforce academic language, literacy, comprehension, and classroom participation using modeling, repetition, visuals, and targeted support.
- Collaborate with lead teachers to adapt curriculum materials and instructional tasks for greater accessibility.
- Promote student confidence, self-advocacy, independence, and positive participation in the classroom community.

HEOP Mentor

2022 - 2024

Rochester Institute of Technology

- Mentored incoming first-year HEOP students to support academic transition, social integration, and confidence in navigating college.
- Provided individualized guidance, resources, and regular check-ins to support student persistence and long-term success.

Teaching Assistant

2020

Rochester Institute of Technology

- Supported instructional delivery, assessment and grading, and targeted learning interventions for college-level students.
- Collaborated with faculty to design and facilitate active, engaging classroom learning experiences.
