Hello, desert!

Hot deserts are
dry. They do not
get much rain.

The biggest hot
desert is the Sahara.

Deserts may be rocky or sandy. Sometimes they have rocks and sand.

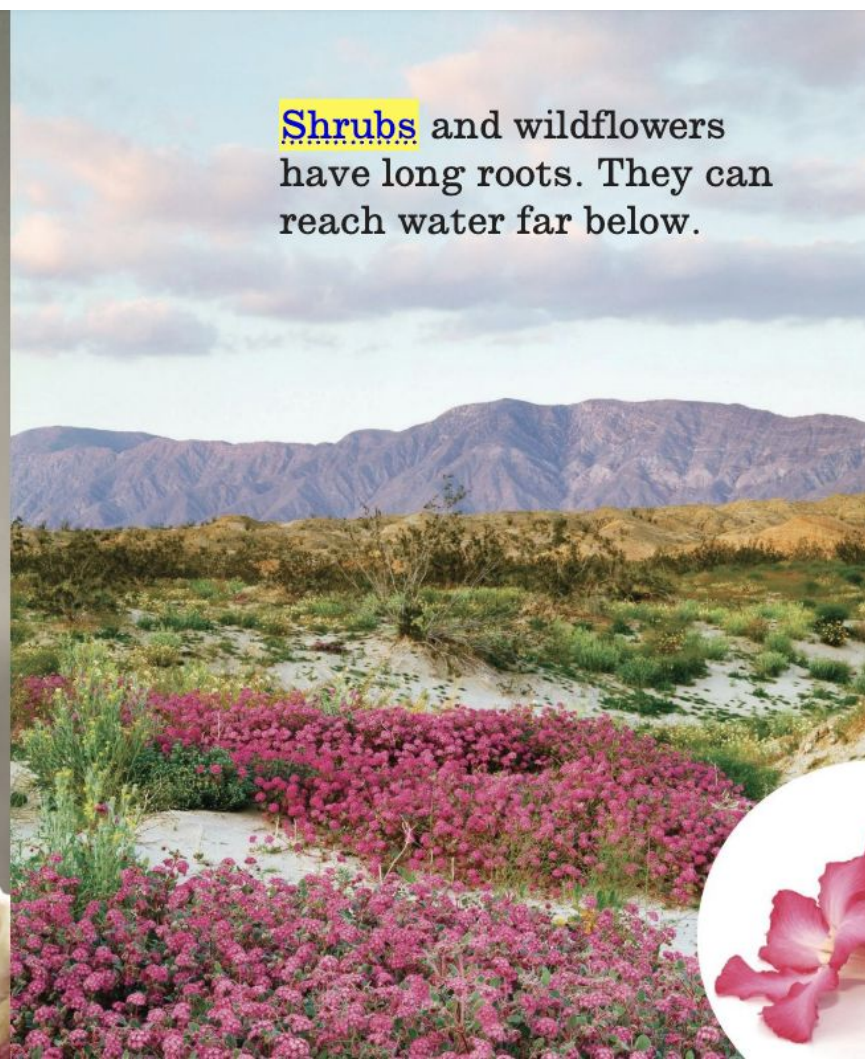

Sandy deserts may have tall dunes. Snakes slide over the sand.

Plants and animals
adapt to the desert.
Animals get water
from food they eat.

Shrubs and wildflowers
have long roots. They can
reach water far below.

Some cacti grow
more than 40
feet tall. They
store water.

Sharp **spines**
keep many
animals away.

The hot desert sun
warms lizards.

Jackrabbits **rest** in shade.
Foxes come out of their
dens at night.
